

Vaishnavi Khande

Nashik, Maharashtra, India • vaishnavikhande69@gmail.com • +91-9284191259 • [LinkedIn](#)

Professional Summary

Aspiring Data Analyst with strong skills in Python, SQL, Excel, and Power BI, experienced in data cleaning, exploratory data analysis (EDA), and data visualization. Proficient in using Pandas, NumPy, and statistical methods to analyze datasets and uncover actionable insights. Adept at building interactive dashboards and reports to support data driven decision-making. Passionate about transforming complex data into actionable insights that improve business performance.

Education

Bachelor of Engineering (B.E.)-Artificial Intelligence and Data Science (SPPU) Sandip Institute of Technology & Research Centre, Nashik	Aug 2023 – June 2026 CGPA: 9.75
Diploma- Computer Science Engineering (MSBTE) Ashok Institute of Engineering & Technology Polytechnic	June 2020 – May 2023 Grade: 83%
Secondary School Certificate (SSC) -MSBSHSE Ashok English Medium School	June 2019 – May 2020 Grade: 87%

Skills

- **Programming:** Python (Pandas, NumPy, Scikit-learn), SQL
- **Data Visualization:** Power BI, Seaborn, Matplotlib, Excel Charts
- **Data Analysis:** Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Interpretation
- **Tools & Technologies:** Excel, Jupyter Notebook, Git & GitHub, MySQL

Experience

Data Analyst Intern Paarsh Infotech	Nov 2025 - April 2026
• Analyzed structured and unstructured datasets using Python, SQL, and Excel to identify key trends and patterns. • Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to improve data quality and reliability. • Developed interactive dashboards and reports using Power BI and Excel to support data-driven decision making. • Wrote SQL queries to extract, filter, and analyze data from relational databases. • Created data visualizations using Matplotlib and Seaborn to present insights clearly to stakeholders. • Collaborated with team members to interpret data and provide actionable insights for business improvement.	

Projects

Intelligent Self-Healing Serverless Data Pipeline using AWS • Built a serverless AWS data pipeline for automated data ingestion and processing. • Implemented ETL workflows using AWS Lambda for data cleaning and transformation. • Added self-healing monitoring with CloudWatch to detect and recover from failures. • Stored processed data in Amazon S3 for analytics and reporting.	
HR Data Analysis for Workforce Insights (Paarsh Infotech) • Analyzed HR workforce data to identify employee trends and performance patterns. • Cleaned and processed datasets to ensure accurate and reliable analysis. • Created data visualizations and reports to highlight key HR insights. • Generated data-driven recommendations to support workforce planning and decision-making •	

Certification

• Data Analytics Job Simulation – Quantum Analyzed retail datasets and generated business insights using data visualization.	May 2026
• Data Analytics using Power BI Workshop – TECH TIP 24 Skills: Power BI Dashboard Development, Data Visualization, Power Query, Basic DAX.	Mar 2026
• Data Analysis with Python – FreeCodeCamp Skills: Python, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis	Dec 2025
